## WHY PARENTS SHOULD CONSIDER A'LEVEL TRAINING PROGRAMS FOR THE CHILD THEY TRULY LOVE BEFORE PROCEEDING INTO THE UNIVERSITY?

### VALDYMAS COLLEGE OF ADVANCED AND PRELIMINARY STUDIES, ILORIN, NIGERIA.

Advanced level examinations such as the Interim Joint Matriculation Examination and the Joint Universities Preliminary Examination (JUPEB), among others, are majorly conducted, approved and accepted for admission by most Nigerian Universities.

They have governmental approval and recognition through the Nigerian Universities Commission (NUC). These programs are better alternative medium of gaining admission into Nigerian Universities aside the basic Unified Tertiary Matriculation Examination (UTME) conducted by the Joint Admission Matriculation Board (JAMB). All students with A' Level results secure admission through Direct Entry into 200Level in the course of their choice.

### THE WRONG ASSUMPTION OR MYTH

There is a usual myth or fear held by many parents or students when advised to pick up A'level programs. The concern is that the program is meant for the academically sound and intelligent students as average and weak students often fail such examinations; this assumption is largely incorrect.

The basis for success or otherwise, it must be clarified, depends on the School of learning where you decide to take the program. There are different accredited Schools of Advanced Level given the licenses to operate and run these programs by carrying out tutorials for the students in preparation for the final examination.

VALDYMAS College of Advanced and Preliminary Studies has consistently demonstrated over 98.7% success rate above 8 points out of 16 every year.

The passion of the School System to drive excellence through each student via discipline and wisdom is a critical tool in maintaining this result annually. We are the First, the Most, the Only and the Best School given to continuous Quality Improvement in Education in Nigeria.

This translates to the fact that parents and sponsors must be careful in making a choice of the training institutions for their wards.

### The 4 Golden Benefits of Advanced Level Trainings @ Valdymas College for your beloved child.

Having dealt with the general myth, it is of upmost importance to highlight and establish the numerous benefits achievable by students who enroll for Advanced level training programs in an excellent-driven institute like Valdymas College.

### Guaranteed 200 Level University Admissions via Direct Entry Route with success from our A' level training programs

Valdymas College has re-written the stories of many hundreds of students. We meticulously follow up the value chain for our students from enrollment with us till they secure admissions into the University.

Valdymas College provides mentorship through our virtual platforms for them till they graduate. We have post training academic, career and leadership support all our graduates.

### Almost 100% University Admissions via Direct Entry with us at Valdymas College

Do you know that the number of registered candidates for the 2019/2020 UTME was about 1.9 million, while about 200000 candidates registered for Direct Entry ([www.dailyschoolnews.com](http://www.dailyschoolnews.com)).

This goes to show the gap of difference in the competition for limited spaces for admission, through UTME, into Nigerian Universities. Federal and State Institutions are affordable their admissions more competitive, but with Direct Entry, through our A' level programs, the chances are about 100%.

### Advanced Level @ Valdymas College prepares your beloved Child for the University Life and beyond

Advanced Level students outperform their contemporaries consistently in the University across all departments. At Valdymas College, we ensure all academic flaws from Secondary School are treated during their A' Level academic journey with us.

There is a huge gulf of difference in the rapidly declining Secondary School Education and the University realities. This causes student who come in through UTME to struggle, with some stumbling, from their 100Level through to graduation.

Our well designed and deployed A Level Program at Valdymas College addresses all the interface gaps between Secondary and University systems. We strengthen the academic mind of your child.

Another core benefit of an A' level program is the opportunity it gives for focus and specialization. While many other means of entrance focus on many subjects, A' level focuses on the core three subjects that relates to the course of study at the University.

Advanced level programs give the opportunity of an excellent preparation for University, employment and life.
